Pune, India

An experienced developer (~5.8+ yrs) with a demonstrated history of designing and developing web applications to drive business growth in both financial services and Industrial sectors.

WORK EXPERIENCE

Senior Software Developer Synechron

04/2022 - Present

Pune

Achievements/Tasks

- Worked on a mobile device protection and insurance platform for Asurion, focusing on streamlining the claim filing and replacement process for lost, stolen, or damaged smartphones.
- Additionally, contributed to the development of **robust administrative tools** supporting both **inbound and outbound call operations**, enabling efficient case handling and customer service workflows.
- Collaborated closely with the **Software Architect** and **Business Analyst** to **define the strategic roadmap** and **planning sessions**.

Software Developer Synechron

11/2019 - 04/2022

Pune

Achievements/Tasks

- I'm working on developing a responsive application for Asurion insurance and Vodafone that handles both trade-in and trade-up claims. The trade-in feature allows customers to return an old item to a retailer for credit towards the purchase of a new item, while the trade-up feature enables customers to upgrade from an older item to a newer one. You can find more information at [Vodafone Trade-in](#).
- Worked on to make responsive email templates UI.

EDUCATION

BE MIT Academy Of Engineering

06/2015 - 06/2019

Courses

- E&TC

PERSONAL PROJECTS

Smart Robotics WheelChair Using TouchScreen.

- Smart robotic wheelchair has a great significance in life of a disabled Person.
- The motors will be controlled and the wheelchair operate in five different modes.
- FRONT, BACK, RIGHT, LEFT and STOP are the proposed five modes.

Mahapanchayat Project

- Led the development of digital applications to transform traditional Gramsevak operations into efficient, paperless systems.
- Converted key offline processes—including beneficiary tracking, home tax, water tax, road tax, family demographics (number of people per household, land area per person), and various certificates (birth, marriage, tax)—into streamlined digital modules.

ACHIEVEMENTS

General Secretary

Won many star employee award at synechron
